

Eurobotics LLM Cost / Intelligence Map — DevOps & AI-Agent Selection
AA Intelligence Index v4.3 × OpenRouter-standard normalized task cost

Eurobotics methodology v1.1: Y = Artificial Analysis Intelligence Index v4.3. X = AA measured cost/task repriced to standard, non-promotional OpenRouter tariffs. Repricing factor = OpenRouter 7:2:1 blended tariff / AA 7:2:1 blended tariff (70% cache-read, 20% uncached input, 10% output).

Sources: <https://artificialanalysis.ai/> | <https://openrouter.ai/> | Matplotlib | Snapshot: 17 Sep 2026. Qwen3 Coder 30B is not x-plotted because AA currently publishes no cost/task for that model.
