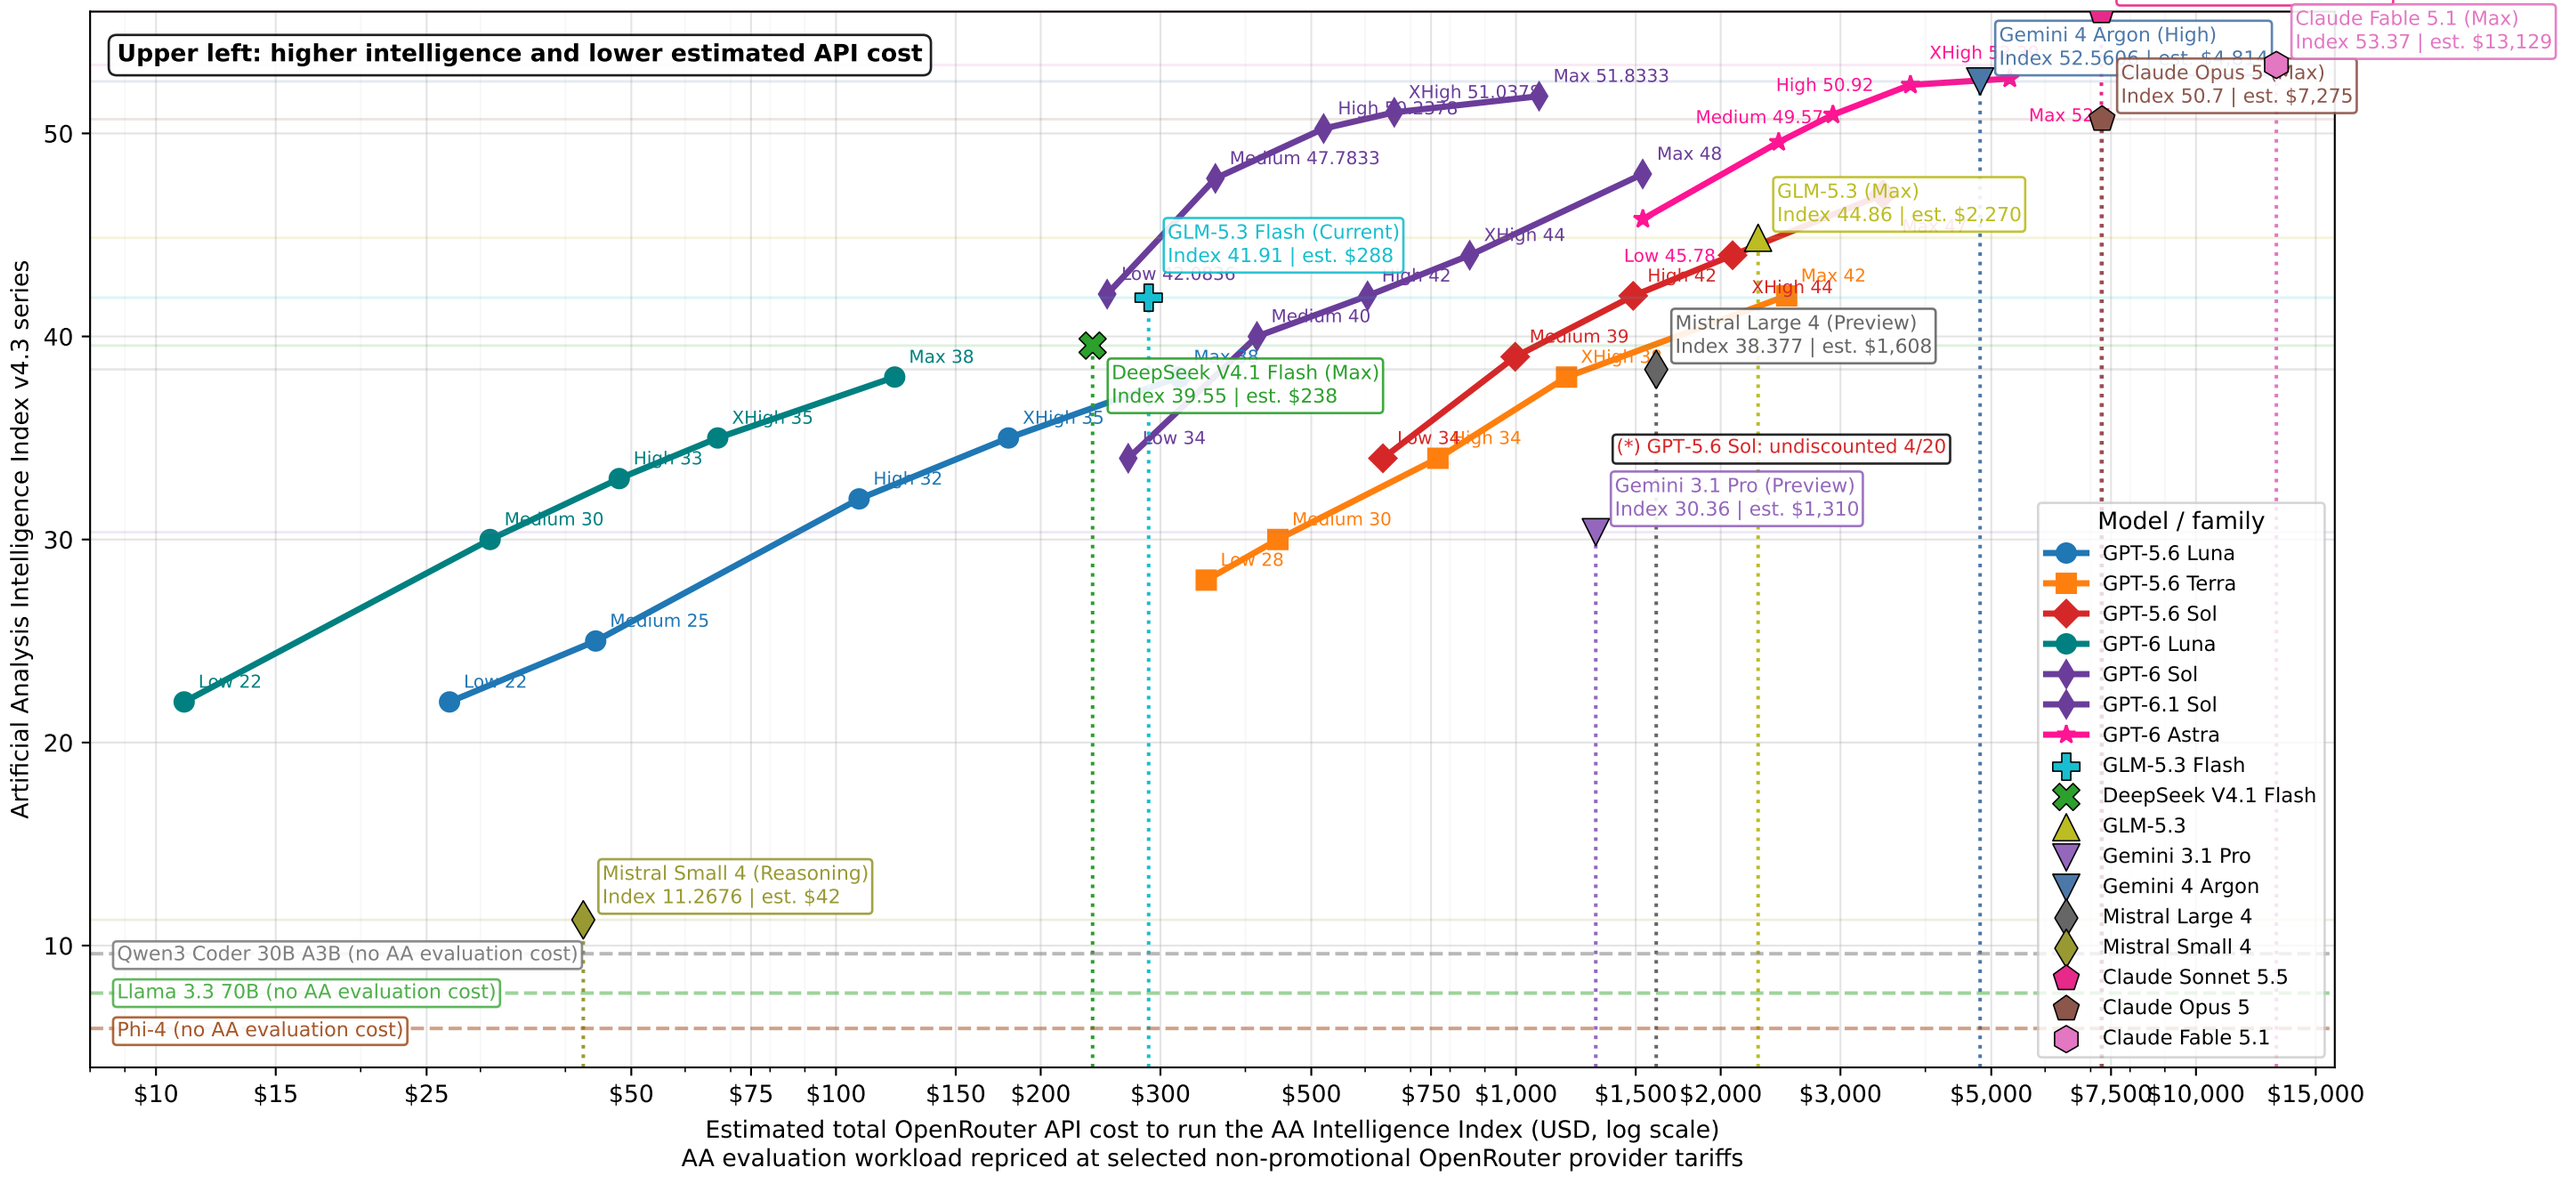
Eurobotics LLM Cost / Intelligence Map
AA Intelligence Index v4.3.2 x undiscounted OpenRouter pricing



Eurobotics methodology v1.7: Y = AA Intelligence Index v4.3 series (current v4.3.2). X = AA measured total evaluation cost repriced to selected non-promotional OpenRouter provider tariffs via the ratio of 7:2:1 blended prices (70% cache-read / 20% input / 10% output). This is a reproducible estimate, not an exact OpenRouter invoice.

(*) All plotted OpenRouter tariffs are undiscounted list prices; GPT-5.6 Sol and Gemini 4 Argon promotions are excluded. GPT effort levels move both vertically and horizontally as effort increases.

Disclaimer: For informational use only - do not use for budgeting. Pricing and benchmark data change frequently; verify current prices and model capability yourself. Eurobotics.org provides this information with no warranty. You are responsible for checking your own pricing and model intelligence requirements.
